

**QUESTION 1: What will each participant receive in a CPD accredited seminar?**

**Answer 1:**

- Certificate of Attendance with Participant's Name, PRC License No. and seminar duration
- Seminar program
- List of participants

**QUESTION 2: Is this seminar or CPD program accredited by PRC (i.e. Foul Water Planning Design)?**

**Answer 2:** This CPD program has already been applied through PICE National on 23 May 2017 and been duly accredited.

**QUESTION 3: In case the CPD program has not received accreditation prior to the conduct of the event, can we still apply this seminar for CPD credits for PRC ID renewal?**

**Answer 3:** Yes. However, the applicant may apply for credit units under Self-Directed Learning to PRC. The prescribed fee by PRC is Php. 1000.00.

**QUESTION 4: How many CPD units will the participant earn for this seminar?**

**Answer 4:** The equivalent CPD units to be earned for each CPD accredited seminar will be determined and provided by the CPD Council after the conduct of the event.

**QUESTION 5: CPD activities are divided into Major Areas with corresponding required credit units as shown in the following table.**

**Answer 5:**

MAJOR AREA	COVERAGE OF THE AREA	CREDIT UNITS REQUIRED
Ethics		2
Professional Practice (e.g. laws, rules, PRB/Commission issuances)	Attendance to PRB-sponsored learning activities	4
Enhancement of Professional Practice in Civil Engineering	General civil engineering practice	10
Enhancement of Technical Competence in chosen field of Specialization*	Civil engineering practice in the chosen field of specialization (career path)	27
Environmental Factors Affecting the Profession (e.g. Gender and Development, Personality Development)	Awareness of the environmental factors affecting the profession	2

**QUESTION 6: There are six (6) specialized\* areas of civil engineering practice, but not limited, as follows:**

**Answer 6:**

- a) Construction Management and Engineering
- b) Energy and Environmental Engineering
- c) Geotechnical Engineering
- d) Water Engineering
- e) Structural Engineering
- f) Transportation Engineering

**QUESTION 7: Required CPD Credit Units in a Compliance Period. Refer to table below:**

**Answer 7:**

Year of Renewal	Required Number of CPD Credit Units	Maximum Units Creditable Per Year
January - June 2017	0	
June - December 2017	15	15
2018	30	15
2019 onwards	45	15

**QUESTION 8: What other benefits the participant can expect by attending this seminar aside from instilling of knowledge and skill?**

**Answer 8:** The participant may apply CPD credit to his/her application to be included in the Engineering Registry such as ASEAN Engineer and APEC Engineer. In addition, the participant will be supporting the noble projects/programs of PICE Qatar such as Scholarship Program, Construction of Green School Buildings, etc.
